At the heart of modern interiors, laminates play a key role in shaping elegance, durability, and functionality. Our 1.25mm Zero & Synchro Laminates collection is designed to deliver a flawless blend of performance and beauty.

Crafted with precision, Zero laminates offer a seamless, ultra-smooth finish that brings out a sophisticated, minimalistic appeal—perfect for refined spaces. On the other hand, our Synchro laminates capture the authentic look and feel of natural textures, synchronized with grain patterns to create a realistic, tactile experience.

Every sheet in this collection reflects our commitment to innovation, quality, and sustainability, ensuring that designers, architects, and homeowners can bring their creative visions to life with confidence. From residential elegance to commercial brilliance, our laminates stand out as a benchmark in style and strength.

With a focus on modern living, timeless aesthetics, and long-lasting value, we continue to redefine surfaces that inspire.

TECHNICAL SPECIFICATION

	PROPERTIES	SPECIFIED VALUES AS PER IS:2046-1995	CLUB CONFIRMS
	Thickness	1.25 mm (± 10%)	✓
	Resistance to surface wear	350 (revolution)	✓
	Resistance to immersion in boiling water		
	- Mass increase (%)	10.0 Max.	✓
	- Tickness increase (%)	11.8 Max.	✓
	Resistance to dry heat 180° C	Not worse than 4	✓
	Dimensional stability at deviated temperature		
	- Longitudinal (%)	0.5 Max.	✓
	- Transverse (%)	0.9 Max.	✓
	- Dimensional stability at 20° C		
	- Longitudinal (%)	0.375 Max.	✓
	- Transverse (%)	0.60 Max.	✓
	Resistance to impact by small diameter ball	20N Min.	✓
	Resistance to cracking	Not worse than 4	✓
	Resistance to scratching	2N Min.	✓
	Resistance to staining	Not worse than 5	✓
	Resistance to colour change (wool standards)		
	- In Xenon arc light	Not worse than 6	✓
	- In enclosed Carbon arc light	Not worse than 5	✓
	Resistance to cigarette burns	Not worse than 3	✓
	Resistance to steam	Not worse than 4	✓
	Appearance	Should be free from foreign particles	✓

All testes may not valid for embossed & metallic laminates.

Grades : General and fire retardant (FR)
Types : Standard, post forming, compact, cabinet liners, backer
Size : 2440 mm x 1220 mm (8"x4")
Thickness : 1.25 mm

CLUB Highlight :

- Design from genuine imported base paper
- Manufactured using best quality kraft paper.
- Use of best chemical raw materials for batter flexibility & durability.

Care & maintenance :
 Cleaning should be carried out with a soft moist cloth and warm soap solution. Do not use detergents containing abrasive particle or excess soda.

Disclaimer : Customers are advised to reconfirm selected laminate when placing orders as our liability does not include claims arising from sample chip pasting error. Sample presented are indicative pf colour, pattern and surface finish but not of actual thicknesses. All metallic patterns series recommended for vertical application only.

Limited Warranty : CLUB warrants that its products are reasonable free from manufacturing defects. The products when properly used, will comply with normal deviation, to related manufacturing specifications. This warranty shall be limited only to the original buyer for a period of care.. improper use and / or any alteration. It is recommended that the products must be inspected prior to installation and our liability will be limited to the extent of the cost of the products only. CLUB is used for various applications, without the possibility of control over the manufacturing of the finished products. The Company does not assume obligations or liabilities arising from the furnishing, sale, installation or repair, use or subsequent sale of any product, to any person or entity.

No claim will be entertained for air bubbles

No claim will be entertained For cracking arising out of groove currying or L-shape
